

# Keeping on track

## Working with Others

1. Who in your group can make sure that you all keep on track?
2. Should you all be responsible for one part each, or are you all responsible for everything that the group is doing?
3. You will need to manage your time. How will you do this?
4. You will need to keep track of your success in the task. Make sure that you are not missing any of the parts out.
5. How about making success criteria?
